

Meet Jingxuan

– a university partnership
success story

UP International College helped Jingxuan gain entry to her dream degree at the University of Auckland and learn important independent study skills.

“I learned how to study autonomously in my ‘flipped learning’ Economics class (content delivered via video gives students more time to ask teachers questions and work on practical exercises). These skills have helped me a lot at university.”

Jingxuan is now studying a Bachelor of Science majoring in Computer Science and Statistics at the University of Auckland, and she has already been awarded numerous certificates from the Computer Science department.

Jingxuan Xu,
graduate and student ambassador
Nationality: Chinese

The University of Auckland Certificate in Foundation Studies
